Crew Dissatisfied.

Dissatisfaction is being shown by the members of the crew of the whaling schooner Margarett, says the New London Day, on account of the amounts that are being deducted from wages for goods purchased while on the voyage. Some of the men claim that they are being made to pay from three to four times what the goods are usually sold for. For instance, they say they are being charged as high as \$1 for socks that are usually sold for 25 cents and from \$3 to \$4 for trousers that can be bought for about \$1.

Some of the members of the crew have not only expressed dissatisfaction in words, but they have put the matter in the hands of attorneys.
